#### AT THE AUDITORIUM. World's Greatest Troupe of Acrobats Today.

One thing noticeable about the Audione thing noticeable about the Auditorium programme is the absence of repeaters or acts that have been seen in this city before, and the management carefully sees that the acts booked in this house are all new to this city. The headline act for the first half of the week is one that is known throughout the world as the supreme acrobatic novelty, The Dollar Troupe. There are eight people in this troups and each and every one is a skiffed symnest. Their ensemble work and four-high feats have never been duplicated. This act last season was the headline feature with the great Barnum & Bailey circus; this fact alone vouches for the quality of the

The above feature act would probably satisfy any vaudeville house in the smaller cities, but the Auditorium has gone the limit and added another feature. The Four Hogans, who will offer their famous Irish comedy farce entitled The Man from Ireland. There are three men and one woman in this act, and all genuine Irish comedians, and shyone can imagine the fun they are capable of producing.

Toy De Trickey, who is known in vaudeville as The Belle of Coontown, will offer her celebrated blackface charfeterizations which have made her the of the best single acts in vaude-

The tron Master, is a great drame. Black fron Marter, is a great drama. Black and white photoplays will also be shown, with the new 40,000 candle power light, which is more than all the other machines in town combined.

Simon Buckner, who was State, and both claimed that Kentucky was the inventor of the seductive beverage which filled the parting glasses.

'No," said one of the three Wirginians present; "the only claim Kentucky can set up with any degree of success is that of inheritance from the Mother of States, and the fact that the Daughter State drinks more juleps. She does not even know the proper way of flavoring them and puts the mint leaves in without

put into the most eloquent toasts known to postprandial oratory.

"That toast, good at all times," said Gen. I knew the first shot MUST come from them. Our great, glorious country was trembling in the balance.

"Our provisions and ammunition were almost exhausted. It was impossible to produce supplies. I knew that if we were to make an attack on the forts the North would not senction it. And the Confederates had declared that any attempt on our part to get food would bring their fire upon us—a thing only a little less horrible to me than the firing of the first shot MYSELF. I would rather my whole garrison should have starved than have fired that first shot which I knew would bring on war. Prestdent Lincoln, if possible, was more averse to war than his predecessor and assured the Governor of South Carolina that all he wished was to feed his starving men.

"Then came the demand from Beauregard that I should immediately evecuate the fort, which I agreed to do in three days unless instructions to the contrary were received. # Cottolene

food is never greasy

Cottolene is a vegetable fat - made from the purest and choicest cotton oil. It contains not an ounce of hog fat.

Cottolene makes delicious pastry-crisp and flaky. For frying, it can be heated to a much higher temperature than butter or lard, and forms a coating which prevents the absorption of the fat.

Cottolene is every bit as good as, and much cheaper than butter for cooking. It is

far better than lard; it is richer, and will go onethird farther than either. It is the most economical cooking fat on the market.
